Legal Notice

Notice Of Public Availability

The United States Environmental Protection Agency (EPA) announces the availability for public review of files comprising the administrative record for the selection of the removal action at the Cornell-Dubilier Electronics Site. The EPA seeks to inform the public of the availability of the record file at this repository and to encourage the public to comment on documents as they are placed in the record file.

The administrative record file includes documents which form the basis for the selection of a removal action at this site. Documents now in the record file include: Action Memorandum, Trip Reports, and Previous Operable Unit Information. Other documents may be added to the record files as they become available. These additional documents may include, but are not limited to, other technical reports, validated sampling data, comments, and new data submitted by interested persons, and the EPA responses to significant comments.

The administrative record files are available for review during normal business hours at:

South Plainfield Public Library 2484 Plainfield Avenue South Plainfield, NJ 07080 (908) 754-7885

Additional guidance documents and technical literature are available at the following location:

U.S. EPA - Region II Removal Records Center 2890 Woodbridge Avenue Edison, NJ 08837 (732) 906-6980

Written comments on the Administrative Record should be sent to:

November 21, 2008

Sunnie Randolph, Director South Plainfield Public Library 2484 Plainfield Avenue South Plainfield, NJ 07080

Dear Ms. Randolph:

The U.S. Environmental Protection Agency (EPA) is currently performing a time-critical removal action at the Cornell-Dubilier Electronics Site under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). The CERCLA Removal Action is located in South Plainfield, Middlesex County, New Jersey.

We appreciate having the South Plainfield Public Library as the designated administrative record facility for the Cornell-Dubilier Electronics Site. The enclosed record files, along with any future documents relating to technical activities at the site should be placed in the public library and be available for public review. The record files should be treated as a non-circulating reference and should not be removed from your facility.

By providing the public with greater access to these records, we hope that they will be better equipped to comment constructively about site activities and to understand the issues relating to the selection of the response action at the site.

Also enclosed is a fact sheet, "Administrative Records in Local Repositories", to assist you and your staff in answering questions posed by the public concerning administrative records for selection of response actions at Superfund sites. Please feel free to distribute this guide to the public.

To ensure the receipt of the administrative record file, I would appreciate your completion of the attached Document Transmittal Acknowledgment form. Please return this form in the enclosed self-addressed, stamped envelope.

Again, I would like to thank you for your cooperation with the U.S. EPA in serving as a Field Repository. If you have any questions or comments, please contact me at (732) 321-6614.

Sincerely,

Dan Harkay

NOVEMBER 2008

Administrative Records in Local Repositories

The "Administrative Record" is the collection of documents which form the basis for the selection of a response action at a Superfund site. Under Section 113(k) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), the EPA is required to establish an Administrative Record available at or near the site.

The Administrative Record file must be reasonably available for public review during normal business hours. The record file should be treated as a non-circulating reference document. This will allow the public greater access to the volumes and also minimize the risk of loss or damage. Individuals may photocopy any documents contained in the record file, according to the photocopying procedures at the local repository.

The documents in the Administrative Record file may become damaged or lost during use. If this occurs, the local repository manager should contact the EPA Regional Office for replacements. Periodically, the EPA may send supplemental volumes and indexes directly to the local repository. These supplements should be placed with the initial record file.

The Administrative Record file will be maintained at the local repository until further notice. Questions regarding the maintenance of the record file should be directed to the EPA Regional Office.

The Agency welcomes comments at any time on documents contained in the Administrative Record file. Please send any such comments to Dan Harkay, Removal Action Branch, U.S. EPA Region II, 2890 Woodbridge Avenue, Edison, NJ 08837.

For further information on the Administrative Record file, contact Dan Harkay, On-Scene Coordinator, U.S. EPA Region II, at (732) 321-6614.
